Belvidere, IL: General Fund tax revenue, FY2014-FY2027

Adopted budgets compared across 14 fiscal years (May-April), with budget vs actual. Taxes only: fees are excluded and offsets are shown separately.

$21.00M
FY2027 adopted gross taxes

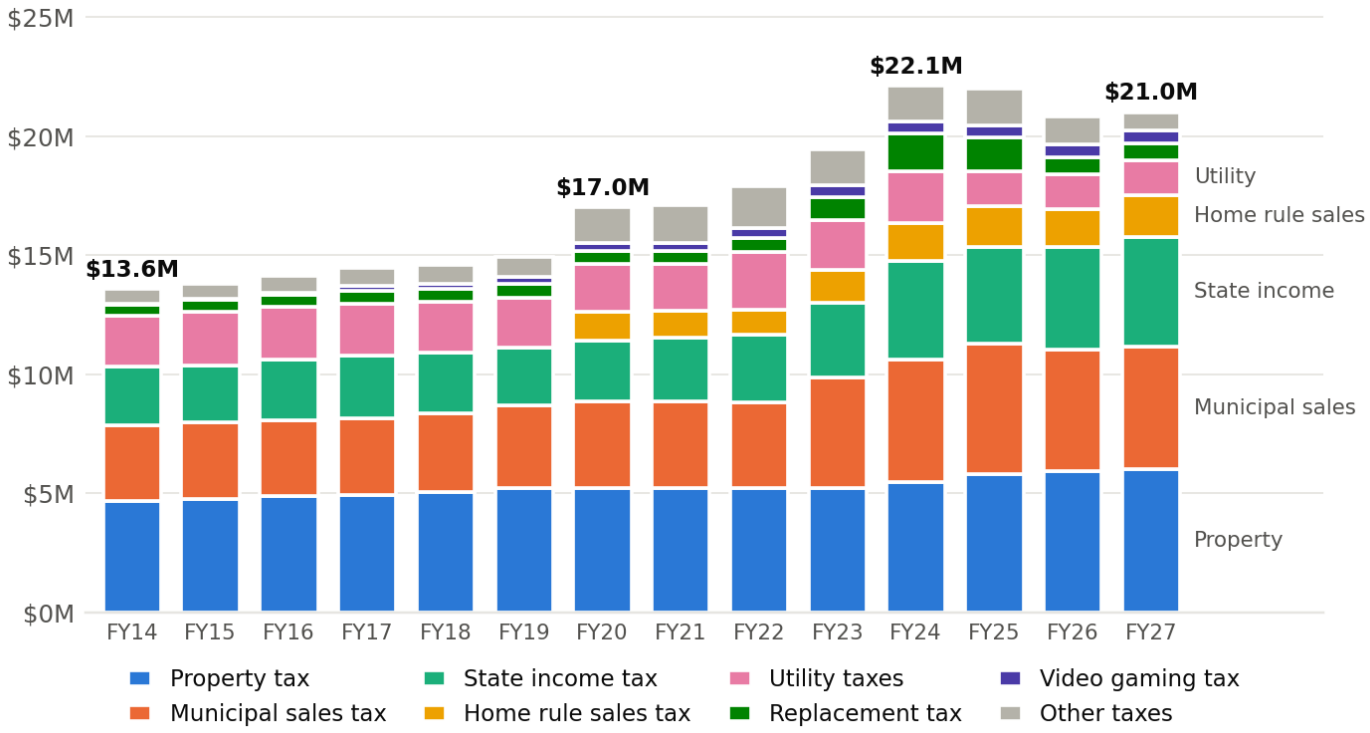

+55%
vs FY2014 ($13.6M); 3.4% a year, not inflation-adjusted

$22.10M
Peak: FY2024 adopted

$20.47M
FY2027 net of offsets (-$0.53M)

What the adopted budgets show

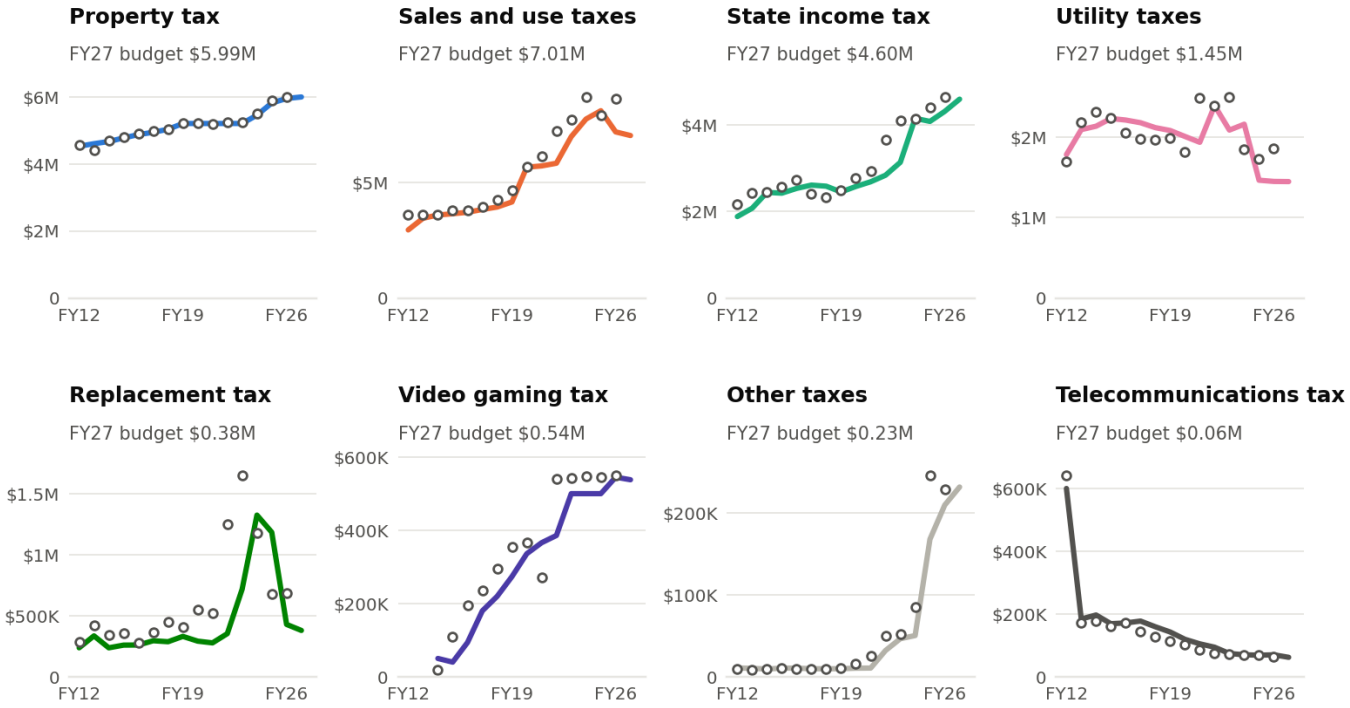

- Gross taxes rose from $13.6M in FY2014 to a peak of $22.1M in FY2024, then fell back to $21.0M in FY2027 (+55% over the period, about 3.4% a year; not adjusted for inflation).
- The largest increases FY2014 to FY2027: state income tax (+$2.2M), municipal sales tax (+$2.0M), home rule sales tax (+$1.8M). In FY2027 property tax is 29% of gross taxes, municipal sales tax 25% and state income tax 22%.
- Utility taxes peaked at $2.4M (FY2022) and are budgeted at $1.4M for FY2027.
- Audited actual taxes came in above the original budget in 14 of 15 years (FY2012-FY2026; median +4%); the biggest gap was FY2022 (+19%). FY2026, the latest audit: $22.62M actual vs $20.13M budgeted (+12%).

Adopted gross taxes by category (stacked; labels show the total for selected years).

Each tax over time

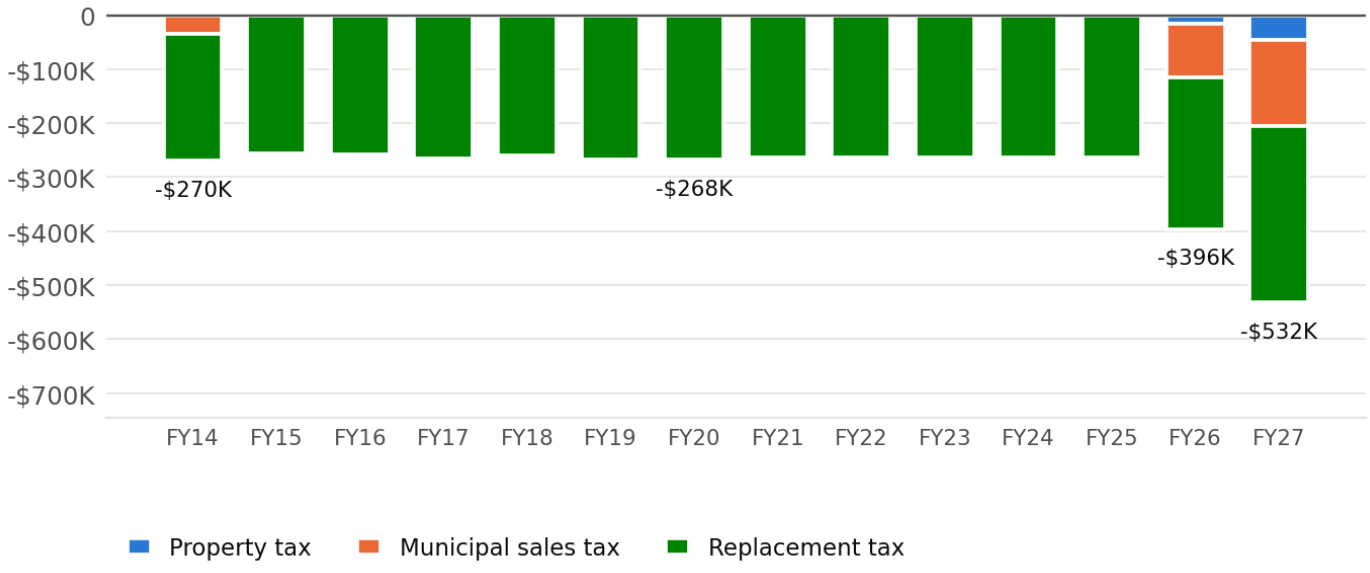

Budget (line) and audited actual (dots) for each tax group, as the audits present them: sales and use taxes together, replacement tax net of the pension distribution, and no separate home rule line. FY2012-FY2026.

Line = budget; hollow dots = audited actual. Own scale per panel. Telecommunications = the municipal infrastructure maintenance line.

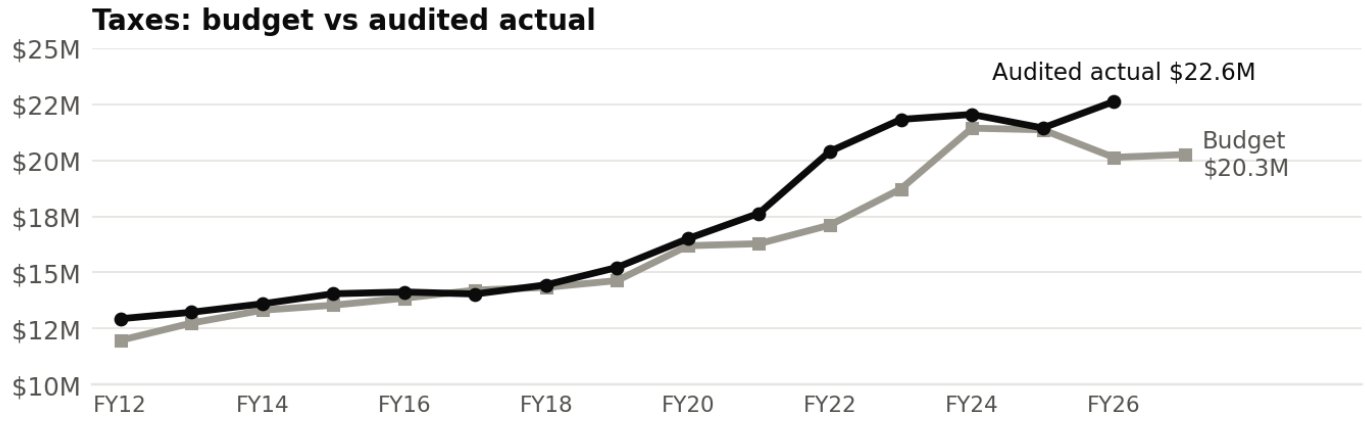

Offsets are shown separately

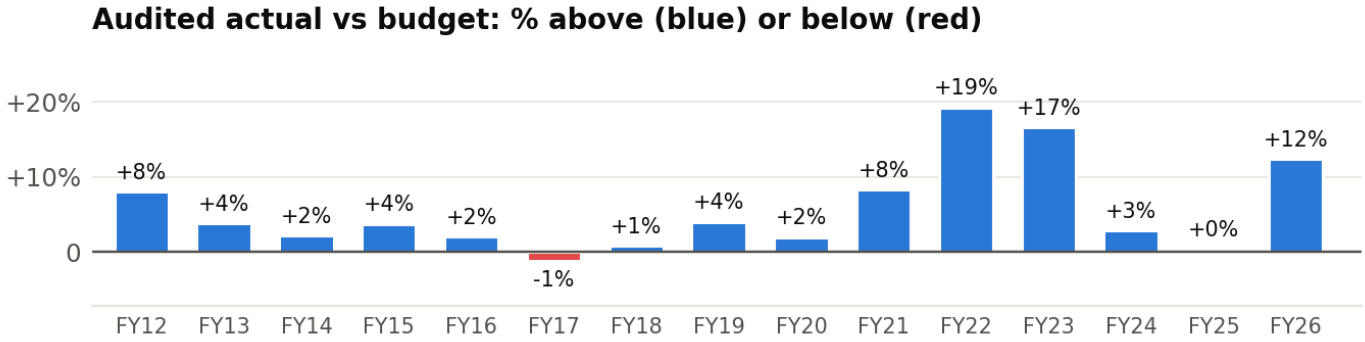

Offsets reduce what the city keeps: replacement tax distributed to pensions, and sales tax and property tax rebated to developers. They are not netted into the category totals above.

Budget vs actual

Actuals are the audited figures from the City's annual financial reports (General Fund schedule of revenues, FY2012-FY2026). Budget is the original budget in the same schedule (FY2027: the adopted ordinance). This is the audit's basis, so its totals differ from page 1: replacement tax is net of the pension distribution, sales and use taxes are combined, and local motor fuel tax is left out.

Where the budget missed, by tax

Percent difference between audited actual and budget for each tax group and year (blank where a tax had no budget line).

	FY12	FY13	FY14	FY15	FY16	FY17	FY18	FY19	FY20	FY21	FY22	FY23	FY24	FY25	FY26
Property tax	+1	-4	+1	+1	+1	+1	0	0	0	0	+1	0	+1	+1	+1
Sales and use taxes	+22	+5	0	+4	+3	+3	+8	+12	+1	+7	+24	+10	+12	-2	+20
State income tax	+15	+17	0	+6	+8	-7	-10	+1	+8	+9	+29	+31	0	+8	+8
Utility taxes	-5	+4	+8	+1	-7	-9	-7	-4	-10	+28	0	+20	-15	+18	+28
Replacement tax	+19	+26	+45	+37	+6	+22	+58	+24	+89	+87	+253	+130	-11	-43	+59
Video gaming tax	-	-	-61	+171	+110	+31	+34	+30	+9	-26	+40	+8	+9	+9	+1
Other taxes	-13	-18	0	+3	-14	-7	-4	+11	+50	+141	+56	+12	+69	+46	+9
Telecommunications tax	+7	-6	-9	-5	+1	-18	-21	-20	-14	-19	-22	-4	-2	+2	-10

Blue = audited actual above budget, red = below (percent). Color saturates at 60%; a dash means no budget line that year..

Notes and data quality

- **Budgets.** City of Belvidere budget ordinances FY2015-FY2027 (General Fund, Exhibit A). The PDFs are scanned images, read by OCR and checked line by line: every department total and the fund total in each year ties to the printed totals (the city's own figures differ from its line items by a few dollars in places). Corrections are recorded in *data/overrides/*.
- **Adopted budget** is the figure in each year's own ordinance. The audits' original and final budgets equal it on 134 of 135 comparable line-years, which confirms it. (The following year's document shows different prior-year numbers for FY2024 utility taxes and the FY2025 Audit and IMRF levies; the audit shows those later figures are not what was adopted.)
- **Actuals** are audited, from the General Fund schedule of revenues in the annual financial reports FY2012-FY2026, extracted and checked to each section's printed total. They replace the 'Actual' columns in the budget documents, which are preliminary and in some years carry budget figures for the replacement-tax pension distribution. The audit does not split municipal and home rule sales tax, so budget-vs-actual is shown by the audit's groups.
- **Scope.** Taxes in the General Fund only. Pension levies in the police and fire funds, motor fuel tax fund, TIF, SSA and capital fund property taxes are excluded to avoid double counting. Franchise fees are fees. The municipal infrastructure maintenance line (the audits' 'Telecommunications tax', $62K-$197K a year) is counted as a tax: inside Other taxes on page 1, and as its own group on the audit-basis pages. Other taxes on page 1 = hotel/motel, auto rental, local use, local motor fuel, cannabis and that line. Local motor fuel tax is left out of the audit-basis charts in every year, because the audits report it inside Grants in FY2020-FY2025 (and separately only in FY2026).
- **Not adjusted for inflation** and not per-capita. FY = May 1 to April 30 (FY2027 = May 2026 to April 2027).
- **Limits.** There is no audited actual for FY2027 yet. Budget-vs-actual percentages for small groups can look large on small dollar amounts.

Data table: adopted gross taxes by category (dollars)

Same numbers as the charts. 'Gross' is the sum of the eight categories; 'Net' = gross + offsets.

FY	Property	Muni sales	State inc.	Home rule	Utility	Replace.	Video	Other	Gross	Offsets	Net
